

Early Journal Content on JSTOR, Free to Anyone in the World

This article is one of nearly 500,000 scholarly works digitized and made freely available to everyone in the world by JSTOR.

Known as the Early Journal Content, this set of works include research articles, news, letters, and other writings published in more than 200 of the oldest leading academic journals. The works date from the mid-seventeenth to the early twentieth centuries.

We encourage people to read and share the Early Journal Content openly and to tell others that this resource exists. People may post this content online or redistribute in any way for non-commercial purposes.

Read more about Early Journal Content at <http://about.jstor.org/participate-jstor/individuals/early-journal-content>.

JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact support@jstor.org.

The Journal of Infectious Diseases

Founded by the Memorial Institute for Infectious Diseases

EDITED BY

LUDVIG HEKTOEN AND EDWIN O. JORDAN

IN CONJUNCTION WITH

FRANK BILLINGS F. G. NOVY

W. T. SEDGWICK

Supplement No. 2, February, 1906

*Some of the Papers presented to the Laboratory Section
of the American Public Health Association
at the Boston Meeting,
Sept. 25, 1905*

Chicago, 1906

The Journal of Infectious Diseases

TABLE OF CONTENTS

PARK, WILLIAM HALLOCK. Some Observations upon the Agglutination of Bacteria - - - - -	1-9
DUNHAM, EDWARD K. Comparative Studies of Diplococci Decolorized by Gram's Method, Obtained from the Spinal Fluid and from the Nares of Cases of Epidemic Cerebro-Spinal Meningitis - - - - -	10-20
GOODWIN, MARY E., AND VON SHOLLY, ANNA I. The Frequent Occurrence of Meningococci in the Nasal Cavities of Meningitis Patients and of Those in Direct Contact with Them - - - - -	21-34
KLOTZ, OSKAR. Temporary Alteration of Character of an Organism Belonging to the Colon Group - - - - -	35-39
RUSSELL, H. L., AND FULLER, C. A. The Longevity of Bacillus Typhosus in Natural Waters and in Sewage - - - - -	40-75
WHIPPLE, GEORGE C., AND MAYER, JR., ANDREW. On the Relation between Oxygen in Water and the Longevity of the Typhoid Bacillus - - -	76-79
JOHNSON, GEORGE A., COPELAND, WILLIAM R., AND KIMBERLY, A. ELLIOTT. The Relative Applicability of Current Methods for the Determination of Putrescibility in Sewage Effluents - - - - -	80-96
JOHNSON, GEORGE A., AND KIMBERLY, A. ELLIOTT. A Comparative Review of Current Methods for the Determination of Organic Matter in Sewage	97-108
KIMBERLY, A. ELLIOTT, AND ROBERTS, M. G. A Method for the Direct Determination of Organic Nitrogen by the Kjeldahl Process - - -	109-122
KIMBERLY, A. ELLIOTT, AND HOMMON, HARRY B. The Practical Advantages of the Gooch Crucible in the Determination of the Total and Volatile Suspended Matter in Sewage - - - - -	123-135
CLARK, H. W. The Resistance to Decomposition of Certain Organic Matters in Sewage - - - - -	136-138
GAGE, STEPHEN DEM., AND ADAMS, GEORGE O. The Collection and Preservation of Samples of Sewage for Analysis - - - - -	139-148
LEVY, ERNEST C. A Ready Method for Preparing a Silica Turbidity Standard - - - - -	149-150
WHIPPLE, GEORGE C., AND MAYER, JR., ANDREW. The Solubility of Calcium Carbonate and of Magnesium Hydroxide and the Precipitation of These Salts with Lime Water - - - - -	151-165

WHIPPLE, GEORGE C., AND LONGLEY, FRANCIS F. Experience with the Use of a Nonbasic Alum in Connection with Mechanical Filtration	- -	166-171
CLARK, H. W., AND GAGE, S. DEM. The Use of Copper Sulphate in Water Filtration	- - - - -	172-174
CLARK, H. W., AND GAGE, STEPHEN DEM. On the Bactericidal Action of Copper	- - - - -	175-204
FORBES, FRED B., AND PRATT, GILBERT H. Notes in Regard to the Determination of Copper in Water	- - - - -	205-209
HILL, HIBBERT WINSLOW. A Notable Source of Error in Testing Gaseous Disinfectants	- - - - -	210-213
SLACK, FRANCIS H. Methods of Bacteriological Examination of Milk	- -	214-222
HILL, HIBBERT WINSLOW. Suggestions for Changes in the Schedules for Making Broth, Gelatin, and Agar, Recommended in the Last Report of the Committee on Standard Methods of Water Analysis	- - -	223-225
HILL, HIBBERT WINSLOW. A Device for Filtering Toxins, etc., by the Use of Water Pressure	- - - - -	226-228
